MICRO SUPER WATERING MACHINE

Superior Cleansing / Ultra Brilliance /
Environment Friendly

| What is the Micro Super Water?

The Micro Super Water is electrolyzed or ionized alkaline water is between around PH12+ with an Oxidation Reduction Potential (ORP) of – 200 mV as cleaning water with chemical free and safe for people.

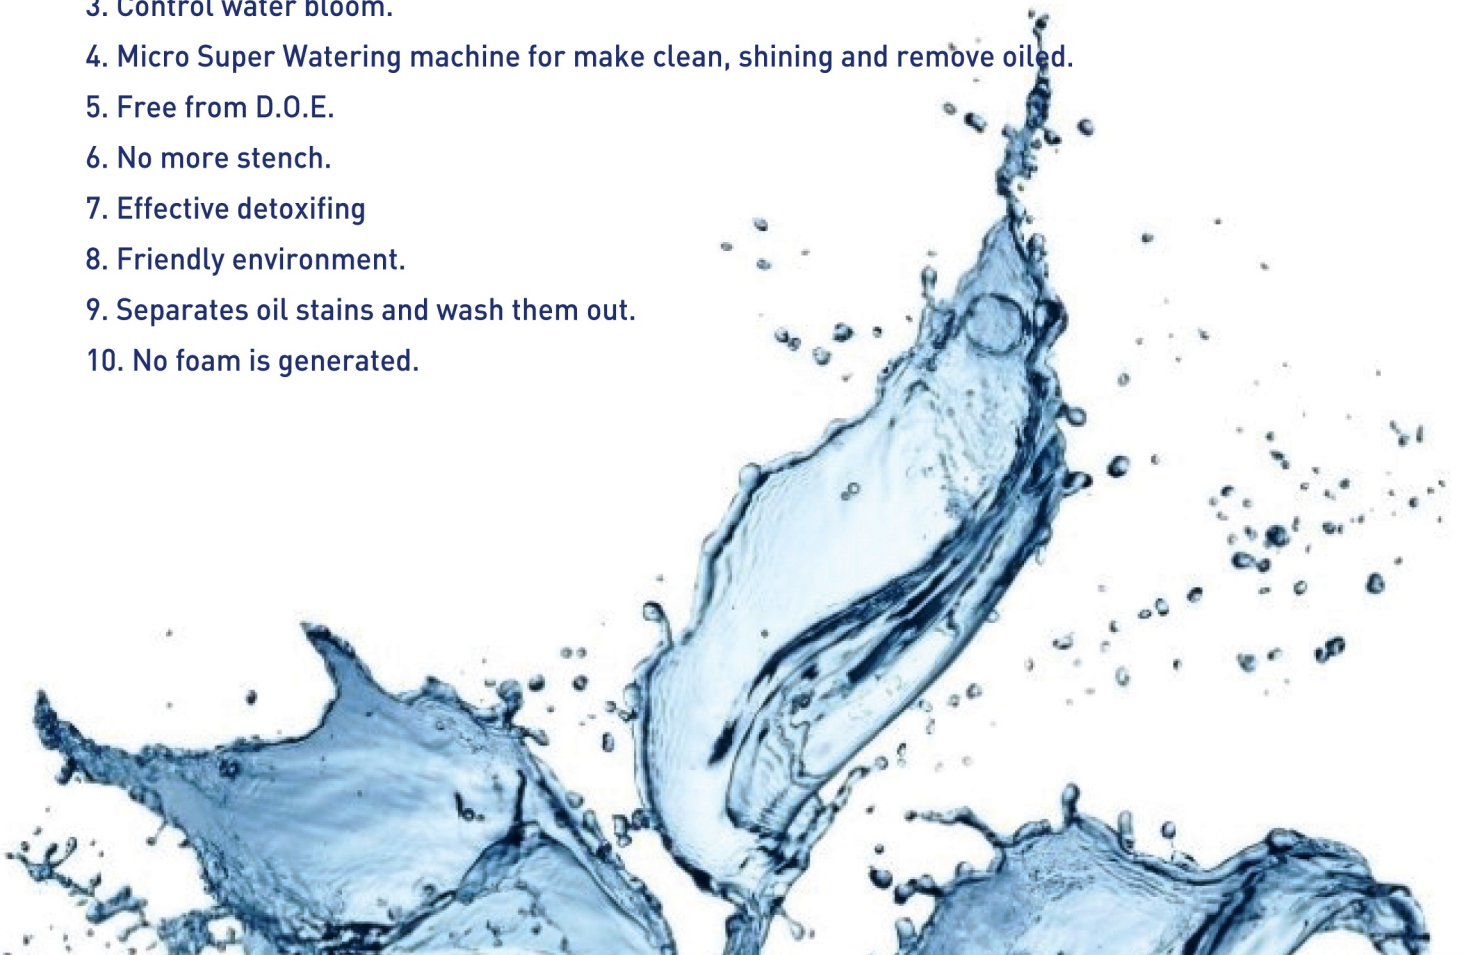

This technological advancement efficiency while protecting the electrode life which produced by mesh eletrode in a super fine mesh with very distinct points and also electro plated platinum to titanium, providing the highest level of conductivity and durability.

The proven durability of electro plated platinum plating ensures to get the best ORP alteration. There is a lack of drinking water around the world today. How can we end this problem?

Why don't we consider saving water during car wash?

This Micro Super Water for car washing has the special feature:

1. Reduce water use and waste discharge to save on water cost.
2. Provide a measuring for chemical component discharge(CCD) of waste water by using no car shampoo and chemical.
3. Control water bloom.
4. Micro Super Watering machine for make clean, shining and remove oiled.
5. Free from D.O.E.
6. No more stench.
7. Effective detoxifing
8. Friendly environment.
9. Separates oil stains and wash them out.
10. No foam is generated.

Micro Super Watering Machine

INNOVATIVE CAR WASH BUSINESS

Easy To Install on Present Car Wash Machine

**Free from D.O.E
Free from Foul**

**New Technology
Micro Super Watering Machine**

- 1) CHEMICAL FREE CAR WASH
- 2) REDUCE WATER AND WASTE WATER
- 3) FRIENDLY ENVIRONMENT, NO STENCH
- 4) REMOVE OILEGE & DUST AND SHINING
- 5) CONTROL WATER BLOOM
- 6) PATENTED USING AN ELECTRO PHYSICAL CHEMISTRISES REACTION

• NO SHAMPOO • QUICK SERVICE
• KEEP CLEAN

<p>Micro Super Watering Machine</p>	Specification	
	Model	MS 7000
	Capacity	2000L /hrs
	Voltage	240V 50HZ 800W 30A
	PH	12+
	ORP	-200mV
	Size	1850 x 700 x 500mm
	Weight	80kg
	Ingredient	100% Pure Water w/o chemical contain
	Acidity	Strong Alkaline

Technomax international as one of the leading company is developed first time new technology for Micro Super Watering Machine of auto car wash industries in the world with environment friendly.

We are introduce you the absolute high technology of cutting edge electrode technology. The new mesh electrode which effectively increases surface area and ionizing power without the large voltage required to run large plate. The technologies we offer are continually developed to meet new and more challenging applications in today's all industrial markets in superior performance and value.

We are the specialist for Micro Super Watering Machine for auto car wash with water saving and environment friendly features and also can supply auto car washing machine if wanted

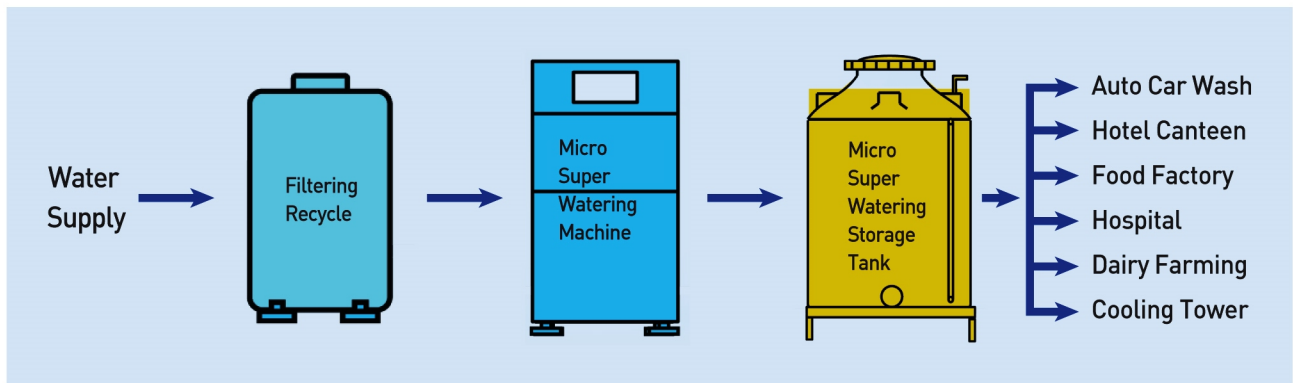

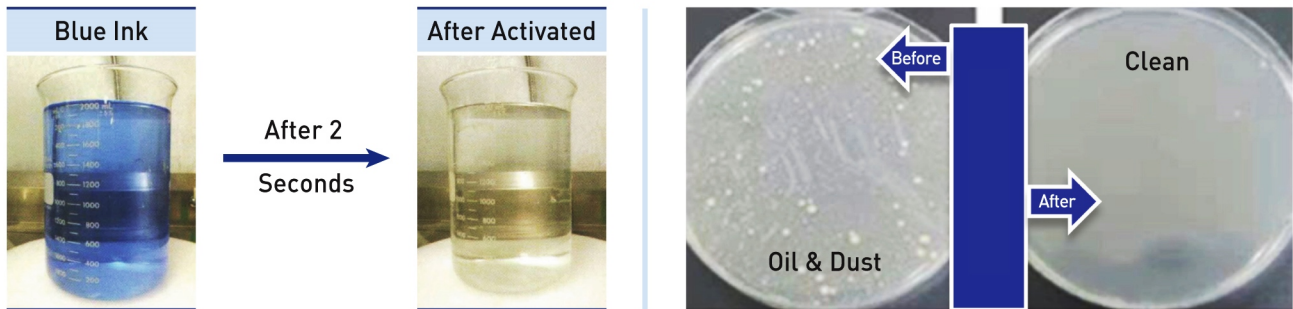

We

As environment protection company are working for various industries in the world.

1. Live stock waste water treatment.
2. Dairy waster water treatment.
3. Cooling tower circulation water treatment.
4. Food industry plant.
